2. The following is an examiner's statement of reasons for allowance: Claims 1, 3 and 25 recite a system comprising a storage area, a floor-bound transport system with at least one vehicle that runs solely along a floor and is configured to take storing units out of the rack shelves and to transport the storing units, a feeding system that does not directly contact the floor and is arranged above and separate from said floor-bound transport system, where the feeding system is moveable above, but along, a portion of the path, and a control system that is designed such that it collects at least the occupancy data of a plurality of storing places and the movement and/or position data of said floor-bound vehicles and of said floor-free storing devices and that, by using this information, coordinates and controls the substantial functions of placing in storage and/or returning to storage, storing and/or intermediately buffering, removing from storage and/or providing of the entire system. These limitations, in combination with the other limitations in the claims, were not found in the relevant prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
